Granby, Colorado 80446

NEWSLETTER NUMBER 42, November 11, 2010

Come to our regular 3rd Wednesday meeting next week to find out what is happening now. Wednesday, 7 PM, November 17 at the Granby Community Center. For those of you may not have been there yet, it is 3 blocks east of the Granby Town Hall and Library.

The caboose is still among the missing. It is not here yet. It is still on its concrete pedestals in Falls City, Nebraska. Dave says it is supposed to be coming at this time. Don't hold your breath. Too many promises have turned out to be false. The 1905 railroad shed is ready to be moved from Hot Sulphur Springs. No information is available as to when it will happen.

It took us 3 hours to get Lyle Hileman's N Scale layout out of his basement. We had to cut it in half and wrecked one corner in the process. Jack has one section and will repair it. Dave has the other one. Hopefully we will get them to the Town Hall lobby next week. It will be for sale to the highest bidder.

The new Christmas layout for the Granby town hall is in place. All 3 trains were running by this week. Lots of scenery needs to be done. Dave, Jim, Craig, J.R., Jack and some non-member help have been working on. Come by any time the town hall is open to see it and lend a hand or two.

It is important for all of our members to make a donation or a pledge for the construction of the Moffat Road Railroad Museum, no matter how small or how large. Foundations want to know that public support and especially member support is in place. Please go to the web site and make a pledge or donation (moffatroadrailroadmuseum.org), or send a check or a pledge to P.O.Box 2221, Granby, CO 80446.

OK! Is that enough to whet your appetite and get you to the meeting next Wednesday?
